

THE SARTAIN SALE OF THOROUGHBREDS

Home Town Helps

OVERCOMING LACK OF WELL

Iowa Community Brought Ingenuity to Bear to Secure Supply of Suitable Drinking Water.

A rural school in Iowa, situated in a locality where suitable water for drinking purposes is to be procured only by driving a well to a considerable depth, met the situation by conserving the wash from the roof of the schoolhouse, passing it through a filter and holding it for use in a brick.

Iowa School Surmounts Difficulty.

underground tank provided with a light curb. The filter is filled with layers of charcoal, sand, and screened gravel of small size which have been placed in the container in the order named. The water which comes from this "well" is highly colored but it is exceedingly cold and palatable. From a sanitary standpoint it is perfectly healthful. Before this means of procuring water for drinking purposes was installed the school children either went without water or were compelled to bring it a considerable distance. —*Union Globe.*

COMPARES WELL WITH CITY

Average American Small Town, in Fact, is Definitely More Pleasurable Abiding Place.

The churches in nearly every small town are centers of wholesome activity, nor is society in any of them like the lurid glaucous picture to us as typical in an imaginary town of a "best seller." Small talk may predominate at any gathering, but that is true in the city, and there may be a lack of the super-refinements of manner and dress, but whether that is to the credit or the discredit of the small town is at least debatable. As for brains and enterprise and energy, why, the small town in America is their breeding ground. It is from the small towns and the farms that the cities of America draw their vitality. How many of the men and women whose names are found in "Who's Who in America" are or were small-town people? Most of them. And those who left the small town for the city did so, as a rule, not because there was lack of beauty, of refinement or of taste at home, but because they sought larger opportunity. The small town is not gross, nor unlovely. It, speaking collectively, is the cherished abiding place of millions of Americans who compare in every worthy attribute with the inhabitants of cities, and whose faults and virtues are inherently the faults and virtues of America itself. —*Exchange.*

City Planning.

Primarily, city planning deals with real estate, with the streets which the people own, and with the ground on which they have erected their homes and places of business. We must realize that city real estate carries with it obligations as well as benefits. When citizens buy property they buy more than just so many feet of ground. They buy location, transportation, gas, electric light service, neighbors, good streets, proximity to parks or boulevards.

City planning is merely a co-ordination and conservation of these different elements which make up the value of property thus purchased by citizens contemplating residence in a given locality. A plan for a city, therefore, is quite like a plan for a residence. The latter has merely to do with an individual house, the former with a larger home—the city. —*Exchange.*

Towns With Zoning Regulations.

Sixty-seven cities of this country are reported to have some kind of zoning regulations now in effect, and 20 cities have complete comprehensive zone ordinances limiting the use of property, heights of buildings and area of lot that may be covered in every block within the city limits. Among cities adopting zoning during the last year are Milwaukee, Berkeley, Washington, D. C., Ogaha, East Orange, Yonkers, Brockton, East Cleveland and a number of smaller cities.

WILLING TO SHARE HIS PROFITS

Allen Michael Is One of the Few Who Think It Worth While to Divide With the Public.

Is there anyone in Chariton County who doesn't know him? There may be a few, but they're a very small percentage of this county's population. Mr. Michael has been blessed with a goodly portion of this world's goods. He not only owns a nice 300-acre farm near here, but also one of the finest homes in Keytesville. His prosperity, however, has not made him forget his friends and neighbors. He's glad to share with others his profitable experience with Doan's Kidney Pills.

Mr. Michael says: "A few years ago I had a bad attack of kidney trouble. I think it came on through being exposed to damp weather. His back was lame and sore and every time I moved a sharp pain shot through me. When I stooped or lifted anything my back used to cause me a lot of trouble. I was often dizzy and my sight was blurred. Little black specks seemed to float before my eyes and the kidney secretions were scanty and highly colored and too frequent in passage. I read in the paper how Doan's Kidney Pills were helping other people and I started using them. A few boxes fixed me up fine. I kept on using them and before long was entirely cured. 60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y."

THE SAME OLD STORY. BUT A GOOD ONE

Mrs. Mahala Burns, Savana, Mo., relates an experience, the like of which has happened in almost every neighborhood in this country, and has been told and related by thousands of others, as follows: "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint three or four years ago and a few doses of this remedy cured me. I have recommended it to dozens of people since I first used it and shall continue to do so for I know it is a quick and positive cure for bowel troubles."

CAUSE OF APPENDICITIS

When the bowels are constipated, the lower bowels or large intestines become packed with refuse matter, that is made up largely of germs. These enter the vermiform appendix and set up inflammation, which is commonly known as appendicitis. Take Chamberlain's Tablets when needed and keep your bowels regular and you have little to fear from appendicitis.
